a Lesson in the University of The New Covenant

Theodore Cottingham, October 25, 2005, Tape 54_7B

www.unc.bz

1. This word from Him below references two dreams I had just before this. In one dream, another man and I were by a seashore, walking along. We saw a diver just below the water's surface excitedly discovering the foundation of a high rock wall, whose foundation extended out a couple feet toward the ocean. It was as if the diver could not see above the surface of the water, even though he was only inches from it. He was totally taken with his discovery of the rock formation he had discovered.

The next night after the dream above, I had this second dream. This second dream ended with me looking in complete awe at a document that Stephen Monty had brought me. It was on paper larger than normal, and its writing was in script. It was the Articles of Incorporation of "something." The paper glowed as if it were alive. The print was larger than normal. It had colors coming from the pages like nothing I could have ever imagined. There was gold leaf intricate designs around the edges. It was transcendent.

Here we go!

2. Those documents were Mine and the ink was Mine and the glow that was on it and that come from it was Mine. And the glow that it addressed was Me. I came for My people. A document that exonerates, exacerbates and brings forth the freedom of My people allowing entry and exit, free, frees to exist, barrier free reefs which into Me see come forth in the living joy that I am, the living joy that I see, the living joy that I provide in color and hues of only Me. I love you.
3. Barrier free reefs, barrier free living, barrier free thinking, enabled and powered by only Me at My knee. See what I am saying. See what I am doing. Open to Me more. Look into My eyes and colors and hues that come from the paper and the glowing glows of My documents. I love you. With life, with life, with raiment, with molecules only Me, exuding life-like characteristics, exhibiting its intended purpose, coming forth its words and its qualities being seen. I love you. I give you Me.
4. **My mighty many come forth through living documents**; and declarations of independence from Me, not; but from delivery systems: restraining systems, the limiting systems, religious systems of not Me.
5. I come forth. **I come forth through the documents exhibited** with the color and ink, rainbows replete, color of only Me, My prism forming focusing devices replete in Me. I love you. I give you Me.

6. I give you dreams and visions increasingly now from Me, by Me, through Me, to Me, to My Mine, **in riddles that rankle with the soul and strife enable through My clear ones not**; those who cannot see Me, then cannot see through Me, and cannot see each other, but enigmas enjoy and empower in each other and clarity defy in the dogma, dramateering empires which represent Me not. I love you.
7. I give you Me and I clarify My role in you, with you, with clarity; clarity and riddles not; enigmas notwithstanding. Sea Me, see Me and what I am saying. Mist not, I love you. Fog none, I love you. I give you Me with no fog lights, My vision pierces, pierces asunder. My vision pierces asunder and gives clarity of every role in Me.
8. **The documents: living, let's see**. See, **see**, see and **give permanence into that which I am doing; documenting, role-ing** with Me in My roles which come forth in the ones that see Me increasingly in **how to walk with Me, and how to become Me in the fullness of My clarity**, which I now bring forth in dreams and visions increasingly and roles which empower, and dis-empower the disemboweled ones who constipated make the flow of My Spirit in My ones who are so free and so powerful, them disengaging My authority and power from their lives with crying, crying, crying.
9. I love you and I give you Me this day. Know that I love you and I empower and I rest you for the season ahead, the season ahead which comes so quickly; the season ahead, the season ahead which touches My world; the season ahead which is now, future no more, in this moment, this second; the mighty many coming forth. Your message/My message; your time/My time; your now/My now. Thank you and goodnight.
